(54) Title: DIGITAL RIGHTS MANAGEMENT

(57) Abstract: A method for allocating to a device a licence to use digital content, the method comprising the steps of: receiving a first block of ciphertext from the device; decrypting the first block of ciphertext to obtain a second block of ciphertext; determining whether the second block of ciphertext meets a criterion; and allocating the licence to the device if the second block of ciphertext meets the criterion.

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.
